The Facilitator

Today Mr. Baba (from Shizuoka pref.) was newly assigned as one of the facilitators among us, for the successor of Mr. Sugawara. Let's support him by All members.

"We with you" on Web-site

This community paper "We-with-you" is to be put on the Web-site of "Tono Magokoro Network"

We want every leavers / new comers to visit the URL below to get the latest information on our activities

URL: <http://www.25.atpages.jp/tonomagokoro>

Today, we have got an i Pot Touch to communicate with Kamigo, the other accommodation of Magokoro-net, because Mr. Hideaki Ise from Fukui Pref. gave it to us.

We recommend you to recycling of Used items.

As there are not safety insoles available in this Tono city Market areas, we would like to recommend you to put yours (used) when you leaves.

For recycling, it's not only insoles but also Rainboots, goggles, etc

What will become of the used raincoats

Once you go to pick up SANMA your raincoat shall get smelly.

It is so troublesome because the passengers next to you may feel sick. So, the new rule to dispose wet raincoat says

"you can leave it only you are going home" @front Matsuzaki,

This leads us to better informational environment, and we are looking for someone who can operate Skype in a long term. If you think you can, Please say something!
